

THESTOPLAB

SKIN CARE FOR SPORTS PEOPLE

THE STOP LAB is a sports cosmetic brand dedicated to putting a stop to any circumstance that prevents you from being the best, while taking care of your skin.

Sweaty hands, tired legs, sunburn, damaged skin, mosquito bites, etc...

At THE STOP LAB we develop formulas dedicated to putting a STOP to all of this. You have to go forward, always go for it. We have already won awards for R&D, Internationalization, trajectory, innovation, let us accompany you on your way to success in sports and skin care while developing your active lifestyle.

A black and white photograph of a man in motion, running or jumping against a textured, possibly concrete, wall. He is wearing a white t-shirt, black leggings, and sneakers. His arms are outstretched, and his legs are in a dynamic pose. A large, dark, diagonal shape is overlaid on the right side of the image, creating a sense of depth and movement.

**Join the STOP revolution,
join THE STOP LAB**

THESTOPLAB

SKIN CARE FOR SPORTS PEOPLE

Sweating is the body's natural mechanism to regulate body temperature. However, something natural and necessary for our body can become a problem for many people both in personal and professional fields to even jeopardizing their day to day. The sweat on the hands and feet has been the cause of defeats in sports competitions, work accidents, frustrated job interviews, car accidents and a host of other problems. And, above all, a lot of insecurity and concern for those who suffer from it.

-
- Not indicated for hyperhidrosis.
 - Avoid the appearance of sweat on hands and feet.
 - It absorbs quickly without sticking, staining, drying or smelling.
 - Without medical prescription.
 - Does not contain allergens, resins, aluminum, magnesium or parabens.
 - Long lasting effect.
 - Made in Spain.
 - Vegan Formula.
 - Dermatologically tested.

STOP SWEAT HANDS AND FEET

Is a temporary solution to all these problems that will help you recover your confidence and focus on what really matters.

It causes a barrier to the sweat glands preventing sweat from appearing on the surface.

It has a non-greasy formula, which is absorbed quickly without sticking, staining, drying or smelling. Vegan, it is dermatologically tested and it complies with European regulations.

It is the most powerful non-prescription product against sweating.

It does not contain allergens, resins, aluminum, magnesium or parabens.

It can be used as many times as you want, it is clean, it is easily removed without leaving a trace and does not damage the grip of the rackets or the material of the gloves.

It helps prevent blisters and sores on the feet.

In addition, it has a remarkable duration, which will allow you to deal with most situations with a single application.

WAY OF USE:

1. Apply a small amount on clean, dry hands and / or feet.
2. Spread the product vigorously for about 15 seconds on the area to be treated until it is completely absorbed.

It can be applied as many times as you want.

In some cases the hands may appear white when the product is applied but they will return to its normal state when washed with water.

Agustín Gómez Silingo
2016 Padel World Champion

Liquid magnesium is a compound that acts on the hands in order to increase grip, for sports applications such as rock climbing and bouldering, weightlifting, gymnastics, crossfit, paddle tennis, etc. Helps keep hands dry in the most demanding situations.

FORMULATED FOLLOWING CURRENT SCIENTIFIC RESEARCH AND HIGHEST QUALITY – We evaluate all available scientific research on raw materials on the market and use the results in the formulation of our product, to obtain the best avant-garde products.

-
- Unbeatable grip.
 - Easy to wash.
 - 50ml format to carry it comfortably.
 - Made in Spain.
 - Vegan Formula.
 - Dermatologically tested.

STOP SWEAT

Effective liquid chalk to help increase grip

UNBEATABLE GRIP. Liquid magnesium gives you a firmer grip, especially useful for climbing and other sporting activities that require reliable hold. Forget sweaty hands thanks to the perfect grip guaranteed by our liquid magnesium.

MAXIMUM QUALITY. Manufactured in Spain, STOP SUDOR liquid magnesium has passed all the required quality controls. Choose the best – your skin will thank you.

OPTIMAL PERFORMANCE. Used successfully in climbing activities, this product is also frequently used for calisthenics, crossFit, pole dancing and gymnastics, as well as in any other discipline that requires a firm grip. Liquid magnesium will improve your performance, whatever sport you play.

WAY OF USE:

Shake before use.

Apply the product and spread a thin layer and allow to dry.

Avoid eye and mouth contact.

Do not apply to wounds.

A new trend in deodorants, in line with a cosmetic production committed to the environment, creating a totally new product.

Unlike conventional deodorants, it does not contain aluminum, alcohol, microplastics, or nanoparticles.

It does not clog pores and does not stain the skin.

STOP OLOR arises from the commitment to cosmetic ethics and care for the environment, with ingredients that respect nature and the skin, that are effective and 100% safe.

-
- Cream deodorant.
 - Eliminates the bad smell produced by sweat.
 - Made with natural ingredients that protect your skin.
 - Efficacy of between two and seven days.
 - Nature-friendly ingredients.
 - 15ml format to carry it comfortably.
 - Made in Spain.
 - Vegan Formula.
 - Dermatologically tested.

STOP OLOR

Anti-odor deodorant

It acts on a wide spectrum of microorganisms, deactivating the enzymes that bacteria and fungi use to metabolize oxygen; it manages to render the “chemical lung” of these germs useless in minutes, causing suffocation. For this reason, unlike what happens with synthetic and traditional deodorants, bacteria cannot develop resistance mechanisms or any type of mutation that allows them to escape the bactericidal action of silver.

WAY OF USE:

Shake before use.

With gentle massage, apply with the fingertips to completely **clean and dry armpits** until the serum is fully absorbed. Repeat when necessary.

How long does a tube of STOP OLOR last?

STOP OLOR is concentrated, so with a small amount you will have enough.

How often should you apply it? The physiology of each person's skin is different. At first you will have to test it to know how effective it is on your skin. The first time you apply it, you should not use it again until the unpleasant odour appears. This way you will know how many days you should apply it.

Thus, **the life of a tube** depends on the applications needed by each user.

Showering and playing sports do not alter the effectiveness of STOP OLOR.

Cream that prepares your muscles for intense physical exertion, produces a sensation of warmth and comfort in the area of application and helps you recover quickly after physical exercise.

Its innovative, fast-acting formula with a high capacity for penetrating the dermis makes it an ideal cream for warming up muscles prior to physical exercise in everyday life and in sports that require high physical demands.

-
- Warm-up for muscles and ligaments.
 - Instant heat effect.
 - Indicated for contact sports and functional training.
 - Ideal for practicing sports and everyday life.
 - Light texture.
 - For all skin types.
 - Vegan.
 - Dermatologically tested.

STOP COLD MUSCLES

Muscle Warm-Up

Indicated to be applied before any physical activity, could be in competition or daily training. Applying it to the muscles that you want to warm up helps to activate them, therefore, it has a preventive factor for injuries, both muscular and joint. It helps to improve general performance, as long as it has been accompanied by an adequate sports warm-up.

It is also a perfect product to provide a sensation of warmth in our body in activities carried out outdoors in cold weather.

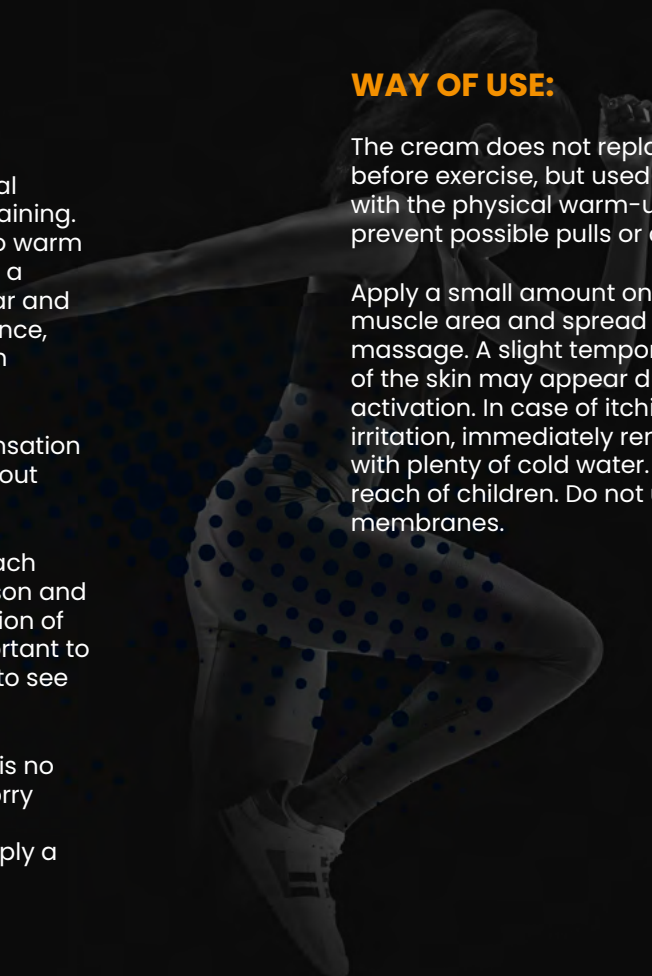

The sensation of heat is very different in each individual. It varies according to each person and according to the sensitivity to the stimulation of the sensory receptors of the skin. It is important to first test the product with a small amount to see how our skin reacts.

If the sensation of heat is strong but there is no itching or stinging, you have nothing to worry about; it will disappear after a while. If the sensation of heat is not strong enough, apply a larger amount of product.

WAY OF USE:

The cream does not replace the warm-up before exercise, but used in conjunction with the physical warm-up, it helps prevent possible pulls or contractures.

Apply a small amount on the desired muscle area and spread with a gentle massage. A slight temporary reddening of the skin may appear due to muscle activation. In case of itching or skin irritation, immediately remove the product with plenty of cold water. Keep out of reach of children. Do not use on mucous membranes.

It is a post-competition sports gel, designed to be used after physical exercise, as it promotes relaxation and muscle discharge. Apply the product on the exercised muscles by means of a light massage and the area will recover muscular well-being, helping to improve training and leaving your body ready for the next session.

Formulated for sports massage. It provides an intense cold, highly refreshing, tonic and recuperative. Created to achieve rapid muscle recovery after physical exercise. The application of cold eliminates fatigue and is ideal for muscle rest. Helps avoid and prevent the appearance of injuries.

- An essential in post-training routines.
- Immediate sensation of relief and comfort with a calming effect on the muscles.
- Activates microcirculation and blood flow.
- Calms tension and reduces muscle fatigue.
- Helps to avoid and prevent the appearance of injuries.
- Deep well-being and a pleasant sensation of freshness.
- Improves the softness, firmness and elasticity of the skin.
- 98.5% natural ingredients.
- Fast absorbing gel.
- Made in Spain.
- Vegan Formula.
- Dermatologically tested.

STOP TIRED LEGS

Immediate comfort

Indicated for strength and/or high-intensity sports, since the stress generated by training can generate transient inflammation at the tendinous-articular level or post-exercise muscle discomfort. It is a perfect product to calm tightness, muscle fatigue, overloads and discomfort in muscles and joints. Sports such as CrossFit, bodybuilding in hypertrophy or strength-power, martial arts and contact sports, running, high-intensity swimming, cycling, tennis and football, among others.

Rest and recovery time after training is key to improving athletic performance, and taking a few minutes to apply this gel helps your muscles and joints recover.

It can be used after day-to-day training and in competition (between tests and tests and at the end of the day). It will always act by reducing muscle tension in a natural way, managing to reduce inflammation of the muscles punished by training. Provides deep well-being and a pleasant sensation of freshness.

It is quickly absorbed and has a pleasant scent.

WAY OF USE:

With clean and dry skin, use daily, morning and night.

Apply with a gentle massage with upward movements from the feet to the waist, emphasizing the ankles, calves and thighs.

Massage until completely absorbed.

Thanks to its very fluid and light texture, STOP SUNLIGHT adapts perfectly to the sensitive skin of sportspeople, providing extreme sun protection SPF 50 even during the most intense efforts.

Developed with a system of sunscreens that act synergistically for very broad and stable UVB-UVA protection with optimal skin tolerance.

-
- Extreme sun protection SPF 50
 - Photostable UVB-UVA filters that fight against the harmful effects of solar radiation.
 - Use in extreme conditions, for a natural complexion and daily invisible protection.
 - Suitable for all skin types, even the most sensitive.
 - Texture specially designed to provide a non-greasy finish and easy application even in hairy areas.
 - The 50 ml portable format allows you to take your sun protection with you at all times.
 - Moisturizes like a cream and absorbs quickly.
 - Helps to ensure global cell protection against oxidative stress.
 - Made in Spain.
 - Vegan Formula.
 - Dermatologically tested.

STOP SUNLIGHT

Extreme solar protector

Offers ultra-broad spectrum everyday sun protection. Ideal for sensitive, normal and mixed facial skin. Its light texture allows absorption in a few seconds and leaves an invisible finish on the skin. STOP SUNLIGHT creates an imperceptible, shine-free barrier that helps fight effectively against the harmful effects of the sun and visible skin damage.

Protect your skin from the sun with high capacity UVB and UVA filters.

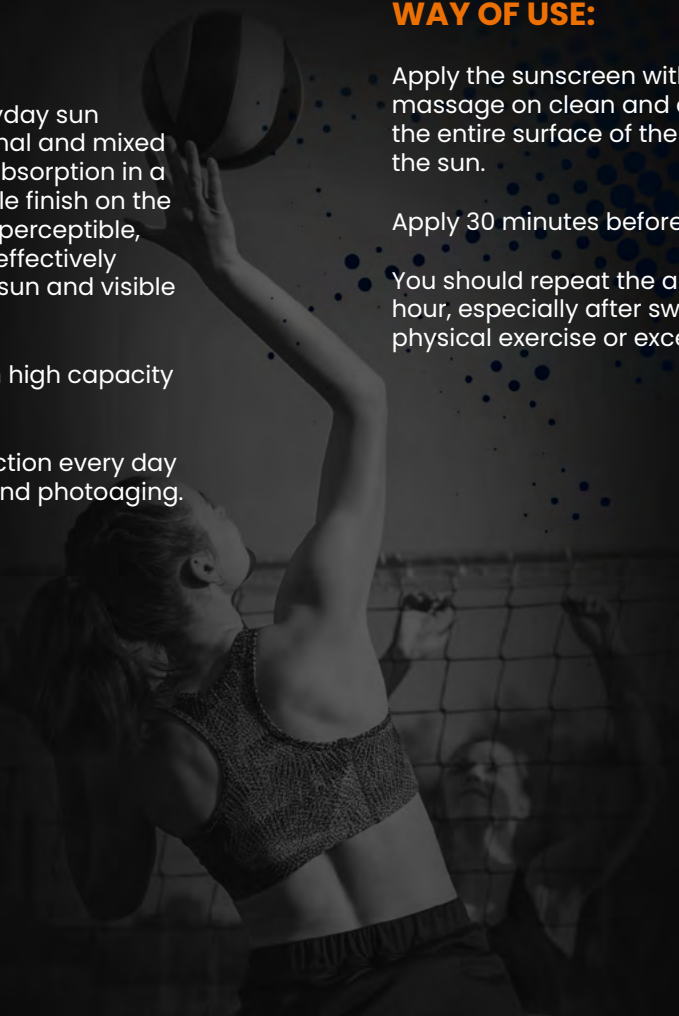

Photoprotection 365: SPF 50 protection every day of the year against sun damage and photoaging.

WAY OF USE:

Apply the sunscreen with a gentle circular massage on clean and dry skin, covering the entire surface of the skin exposed to the sun.

Apply 30 minutes before sun exposure.

You should repeat the application every hour, especially after swimming, intense physical exercise or excessive sweating.

Thanks to its light and emollient texture, it nourishes in depth, while increasing the softness and beauty of the skin. It absorbs quickly and does not stain.

The synergy of natural extracts with caffeine, whose combination is capable of activating and accelerating metabolic processes related to fat burning and preventing the accumulation of triglycerides in adipocytes. Its activity adapts to the differences in metabolism during the day and night, 24 hours a day.

-
- Activates lipolysis, reduces the size of fat cells and helps eliminate them.
 - Reduces adipose tissue and prevents fat accumulation.
 - Improves the firmness of the skin, favouring the creation of collagen.
 - Improves circulation and prevents fluid retention.
 - Hydrates and softens the skin helping to maintain its natural balance.
 - Light and emollient texture.
 - For all skin types.
 - Vegan.
 - Dermatologically tested.

STOP CELLULITE

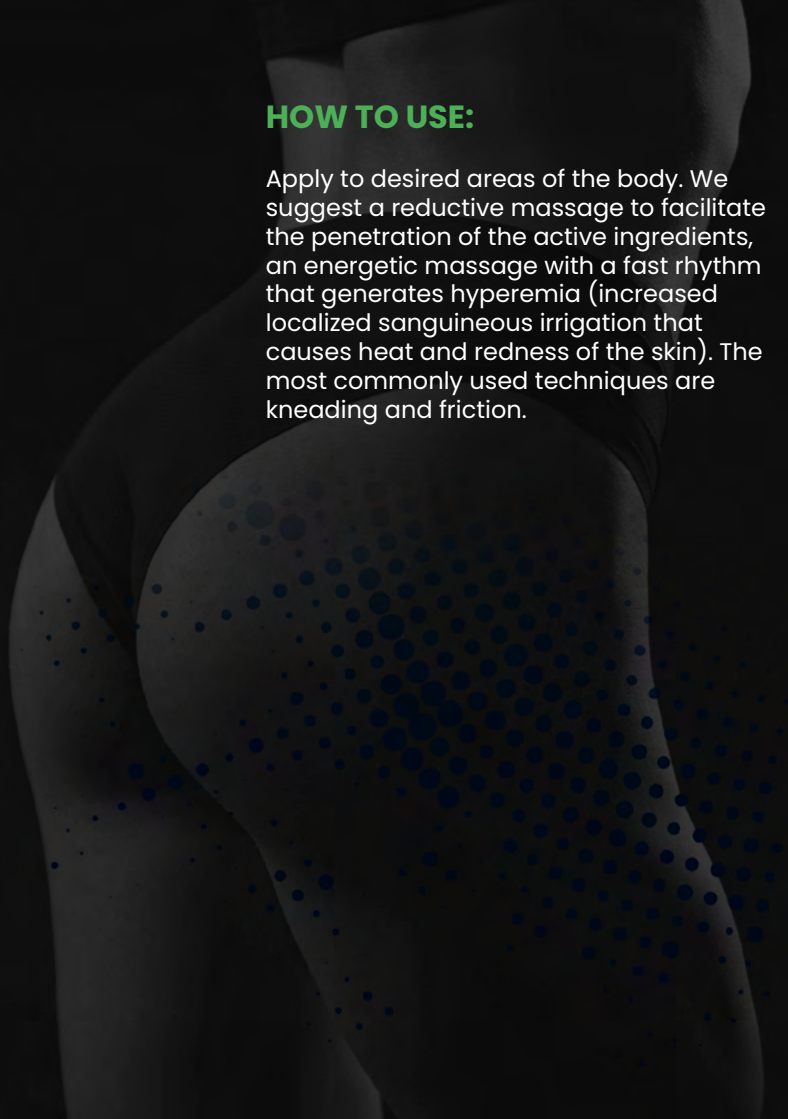

Reducing, firming, anti-cellulite

Designed with active ingredients that directly attack lipid deposits, it acts as an "intelligent fat burner", which dissolves cellulite nodules and localized fat. Its function is to prevent and reduce the appearance of orange peel skin in areas with excess localized adiposity. It is ideal for thighs, hips and buttocks.

It is based on almond oil that provides elasticity to the skin with a highly moisturizing action. Complete the formula with natural extracts and caffeine that act by dispersing accumulations of fat and fluids with an immediate lipolytic effect in the area of application.

HOW TO USE:

Apply to desired areas of the body. We suggest a reductive massage to facilitate the penetration of the active ingredients, an energetic massage with a fast rhythm that generates hyperemia (increased localized sanguineous irrigation that causes heat and redness of the skin). The most commonly used techniques are kneading and friction.

STOP DAMAGED SKIN

Formulated for sensitive skin

Ultra-nourishing cream for skins that need urgent repairing, it is the perfect solution to deeply regenerate your skin, as it contains active ingredients that stimulate the production of collagen and elastin while promoting cell renewal.

Enriched with ingredients that moisturize, improve elasticity and combat the effects of skin's dehydration, providing a more youthful appeal. In addition, its formula includes active ingredients to protect the skin against external factors. Its creamy texture is very nourishing and will leave your skin with a pleasant velvety touch.

-
- High nutrition
 - Immediate repair
 - For all skin types
 - With natural ingredients
 - Made in Spain.
 - Vegan Formula.
 - Dermatologically tested.

STOP CHAFING

With its immediate emollient action, it prevents blisters and inflammation, hydrates and softens the skin through its film-forming and protective action. Product to prevent chafing and blisters that protects, moisturizes and revitalizes. With its fast-acting emollient action, it prevents blisters and inflammation, hydrates and softens the skin and, through its film-forming and protective action, reinforces the skin's elasticity and defense capabilities.

Apply before the sports activity, performing a long massage in the areas affected by friction (feet, crotch, armpits, etc.) and during the performance of the sport if necessary (in the case of a sports event such as a marathon, it can be applied as prevention 10 to 15 days before the test).

- Limitation of irritations
- The gel makes the blow "slip" and limits chafing.
- Resistant to sweat during the game.
- Waterproof, you can play in the rain in winter.
- For body and feet.
- Made in Spain.
- Vegan Formula.
- Dermatologically tested.

STOP FOG

The main advantage of STOP VAHO spray is that it can be easily applied to any surface, be it eyeglasses, sunglasses or even protective screens, electronic devices or even the visor of a motorcycle helmet and then spread the liquid with a cloth for glasses. Enjoy good vision without worrying about fogging.

-
- Limits the appearance of fogging
 - Compatible with all surfaces
 - It does not contain dangerous agents or ingredients for the environment
 - Contains less than 5% anionic and non-ionic surfactants
 - Made in Spain.
 - Vegan Formula.
 - Dermatologically tested.

STOP MOSQUITOES

Body spray with a citrus scent that provides a pleasant sensation of freshness. It can be used for children and adults. Ideal format to take on trips, excursions or camping.

It is an effective insect repellent, especially to enjoy outdoors without bites. It is especially suitable for outdoor activities, in tropical climates and when extra protection against mosquitoes is necessary.

Vaporize and spread the product on the areas exposed to possible bites, without the need to apply in excess.

With natural ingredients.

It forms a protective barrier on the skin that provides high protection against mosquito bites.

Non-toxic repellent.

It uniquely combines efficacy, safety and cosmeticity.

Does not leave a greasy or sticky feeling on the skin.

- Made in Spain.
- Vegan Formula.
- Dermatologically tested.

THESTOPLAB

SKIN CARE FOR SPORTS PEOPLE

A person wearing a white lab coat, a white face mask, and safety glasses is working in a laboratory. They are holding a small vial or container. The background shows laboratory equipment and a clean, professional environment.

THESTOPLAB is a brand of Laboratorio Español de Investigación Cosmetológica, a company backed by a legacy of three generations dedicated to the manufacture of cosmetic products.

With awards for R&D, Innovation, Trajectory, Internationalization and Best Natural Product, Laboratorio Español de Investigación Cosmetológica develops and manufactures products tested by dermatologists in Spain (Alcoy), formulated with a high percentage of active ingredients and aimed primarily at clinics specialized in skin care.

In 2022 the idea arose of applying some of these formulas to the sports field. Formulas initially developed for the severe dermatological treatment of atopic skin, muscle problems, excessive sweating, sun protection or even bad smell, are put at the service of the athlete with the highest percentage of active ingredients ever found outside a dermatological clinic, in a comfortable, sustainable format and at a price that anyone can afford. With this philosophy THESTOPLAB was born, taking care of the health of the skin, the largest organ of the human body, while improving sports performance.

Laboratorio Español de Investigación Cosmetológica products, exported to 80 countries, are manufactured sustainably in Spain under the strictest standards of work ethics, with a high percentage of natural ingredients, 100% safe, vegan and not tested on animals.
